AFFIDAVIT

STATE OF WEST VIRGINIA

COUNTY OF CABELL, to-wit:

I, Brandon S. Holestine, being duly sworn, hereby depose and state as follows:

1. I am a United States Postal Inspector employed with the United States Postal Inspection Service (USPIS) since April 2017. I am presently assigned to the USPIS Charleston, WV domicile where my responsibilities include the investigation of crimes involving the United States Postal Service (USPS) and crimes furthered through the use of the United States Mail. This includes the investigation of controlled substances and narcotics proceeds sent through the U.S. Mail. Prior to my assignment in the Charleston, WV domicile, I was assigned to the USPIS Cleveland, OH field office where I also conducted investigations involving controlled substances and narcotics proceeds sent through the U.S. Mail and was assigned as a task force agent with U.S. Drug Enforcement Administration.

2. This affidavit is made in support of an application for a search warrant to search the contents of USPS Priority Mail Package bearing tracking number "9505 5108 3248 3095 8190 81" with a return address of "Salyers, Kevin 924 11th St. Huntington WV 25701" and a delivery address of "Landeros, Sabrina 1424 Springfield St. Apt D. Upland, CA 91786" (hereinafter referred to as "SUBJECT PARCEL"). The SUBJECT PARCEL is a USPS Priority Mail Medium Flat Rate Box with approximate dimensions of 12"14.125"x3.5". The SUBJECT PARCEL was mailed on April 5, 2023 from Huntington, WV 25701 with \$17.10 postage affixed. The SUBJECT PARCEL is currently located at 1000 Centre Way, Charleston, WV 25309.

3. The information contained in this affidavit is based on information I have gained from my investigation, my personal observations, my training and experience, and information related to me by other law enforcement agents and witnesses.

4. Drug trafficking background gained over the years has shown that drug dealers and drug traffickers utilize the USPS for shipping narcotics proceeds and controlled substances, including but not limited to cocaine, heroin, methamphetamine, marijuana, and pharmaceuticals. The use of Priority Mail Express, Priority Mail and First Class Mail are favored because of the reliability, anonymity, speed (overnight service), minimal cost, and ability to track the mail piece.

5. Through experience gained in drug investigations by Postal Inspectors and other law enforcement agents, and through information provided by individuals who have been involved in buying, selling, and shipping drugs by Priority Mail Express, Priority Mail, and other types of shipments, USPIS has established a drug profile policy to screen mail packages for narcotics and/or controlled substances. The profile characteristics include peculiarities in labeling and unusual packaging techniques as well as other considerations. The reason that handwritten labels are of interest is that the vast majority of premium mail services such as Priority Mail Express and Priority Mail involves business-to-business or business-to-person correspondence and features typewritten or computer-generated labels. Person-to-person correspondence (and the handwritten labels attendant thereto) accounts for a very small minority of total Priority Mail Express and Priority Mail traffic.

6. Postal Inspectors, Special Agents of the Drug Enforcement Administration (DEA) and other intelligence sources have identified Arizona, Texas, California, Florida,

3:23-mj-00014

Georgia, Michigan, Oregon, New Jersey and New York as major source states for illegal drugs flowing into areas within the Southern District of West Virginia.

7. From my experience, training, and knowledge of drug shipments through the United States Mail, I am aware that drug traffickers frequently use fictitious names and addresses on the return address portion of the mailing label both to remain anonymous and avoid detection. Some return addresses have been found to be legitimate addresses, but the actual resident at those locations is either fictitious or non-existent. I am also aware that the address of the person that the mail piece is addressed to is generally not fictitious because a valid address is necessary for the package to be delivered. However, at times the true name of the addressee may be altered or ignored in favor of an alias or code name to better disguise their identity from law enforcement.

8. Based upon my knowledge, training, and experience I know that drug traffickers using the USPS often use unusual packaging techniques. These may include excessive taping or wrapping or by including within the package items having strong odors in an effort to contain or mask the odor of controlled substances in order to avoid detection by trained narcotics dogs.

9. Your affiant knows based on training and experience as well as consultation with other agents, that U.S. Mail is often used by narcotic traffickers to transport controlled substances, as well as U.S. currency derived from the distribution of controlled substances, either as payment or proceeds. Your affiant knows based on training and experience that USPS Priority Mail Express and Priority Mail is commonly used to transport controlled substances because narcotic traffickers can track the parcels, and control dispatch times and locations.
